

Charlotte Nkuna

OBJECTIVE

Junior Full Stack Developer with 1+ years of hands-on experience building scalable web applications using Java, Spring Boot, React.js, Angular, and Node.js. Skilled in designing responsive front-end interfaces and developing robust back-end services with RESTful API integration. Proven ability to collaborate effectively in hybrid, Agile environments while delivering high-performance solutions. Seeking a Full Stack Developer role to contribute to cross-functional teams building impactful web and mobile applications.

EXPERIENCE

APR 2026 - PRESENT

Full Stack Software Developer Intern | Shaper | Johannesburg, South Africa

- Develop and maintain enterprise-grade web applications using Java, Spring Boot, and Angular.
- Build responsive, high-performance user interfaces with TypeScript and Tailwind CSS.
- Design and integrate RESTful APIs connecting front-end and back-end systems, enabling seamless data flow.
- Optimize PostgreSQL database queries and collaborate with cross-functional teams of 8+ developers in Agile/Scrum environment using Trello and GitHub for version control.

APR 2024 – MAR 2026

Full Stack Software Developer Learner | Shaper | Johannesburg, South Africa

- Built and deployed a full-stack web application using React.js, Express.js, and Express.
- Integrated RESTful APIs and JWT authentication systems, improving application security and streamlining user access, and managed SQL databases with Prisma ORM.
- Developed responsive user interfaces using HTML5, CSS3, and Bootstrap.
- Maintained code quality through Git version control and collaborative code reviews with a team.
